

RONNIE KING is the President of ASGE King Music as well as the Founder of Ronnie King Music and co-founder of Ronnie King Entertainment. Mr. King is a Multi-Platinum, Diamond Certified (more than 10 million units) Oscar and Grammy Nominated producer, composer, arranger, musician and philanthropist. He has collaborated with multi-million-dollar selling artists such as Mariah Carey, Tyrese, Tupac Shakur, Snoop Dogg, The Offspring and Rancid. His iconic sound is universally recognized and he is one of the few producers alive today who is known for his work across music genres: from rap to punk, from country to the blues, from classical to world music and so on.

Ronnie King has recently brought in several experienced management executives and also aligned his operations with several Investment Banks and larger known Music Companies to scale and expand his “Brand” worldwide. The plan of action for facilitating this endeavor is currently underway.

For many of you who know Ronnie and for those who know of him, this is a very exciting time not only for Ronnie but for the music business worldwide. After many years of disruption caused by the transition from ‘hard goods’ to digital delivery of music, it appears that a business model is evolving whereby musicians and music labels alike can make a fair profit and living. Not to say we don’t have further to evolve with this model but it is turning positive.

Now is a great time of opportunity in the music industry with many artists making large sums of money from digital downloads of their music and for artists, labels, and record companies being acquired at great multiples by the larger companies such as Apple, Spotify, Amazon, E-One, Sirius, Liberty, et.al. Of course you have to create music that people want to hear and create a strong presence in the social media universe. You need to become a recognizable “Brand”

With the Ronnie King Group, we have the experience, history of writing and performing with some of the largest artists in the last 25 years, catalogue, consistent pipeline of music content, high demand for Ronnie’s services and performing, and a very strong worldwide following on his social media platforms.

“RONNIE KING HAS ALL THE COMPONENTS AND CRITERIA OF SUCCESS NOW AND THE FUTURE”!
