**KEELING TECHNOLOGIES ENTERS INTO A SPONSORSHIP AGREEMENT  
WITH THE RONNIE KING GROUP**

**October 22, 2017: Calgary, Canada:** Keeling technologies, Inc., makers of cutting-edge, wireless, in-ear monitors announced today that it has entered into a Sponsorship Agreement with the *Ronnie King Group*. The announcement was made by Adam Keeling, Chairman and Founder of Keeling Technologies. Keeling has developed the world's first luxury, wireless intelligent in-ear monitors that calibrates to the user's biology to deliver the perfect reference sound.

*“Keeling’s goal is to bring to market the holy grail of sound with our ultra-high-tech, in-ear monitors for top tier recording artists on stage performance and professional studios, said Keeling”. Keeling Continued, With Ronnie King’s experience and legacy of over 25 years in the music business creating, producing, and performing with the tops artists throughout the world, we feel incredibly comfortable and excited to have Keeling monitors be used and represented by Ronnie”.*

Ronnie King is the President of ASGE King Music as well as the Founder of Ronnie King Music and co-founder of Ronnie King Entertainment. Mr. King is a Multi-Platinum, Diamond Certified (more than 10 million units) Oscar and Grammy Nominated producer, composer, arranger, musician and philanthropist. He has collaborated with multi-million-dollar selling artists such as Mariah Carey, Tyrese, Tupac Shakur, Snoop Dogg, The Offspring and Rancid. His iconic sound is universally recognized and he is one of the few producers alive today who is known for his work across music genres: from rap to punk, from country to the blues, from classical to world music and so on.

Ronnie King commented, *“When I met Adam and was educated on the technology and tested their monitors, I knew they had a very special sound. With their patented ability for the monitor to be able to calibrate to the ears biology there was an impressive, immersive sound. I look forward to not only using the monitors myself but to also share the product with my colleagues not only in the studio but also while performing. Through time I have performed using the best in-ears monitors that are available and Keeling has set a new bar with their cutting-edge technology”.*
