

ASG ENTERTAINMENT NEWS RELEASE

February 5, 2018: ASG Entertainment (ASGE) is happy to announce that it has restructured its operations to better position the company for managing its present and future projects and services for the effective coordination of its operations and responsibilities on behalf of its partners and affiliates.

ASGE is moving forward and will be preparing for the facilitation of additional financing to prepare ultimately for the public offering of its shares. The company will also be enlisting the services of a highly reputable and qualified public relations firm to assist with refreshing the company's "Brand" creating enhanced exposure and positioning of the company and its new affiliations, projects and services. Members of ASGE are very familiar with the firm and have worked with them in the past. At the appropriate time an announcement will be made about the relationship and some of our new directions.

We are preparing a "mezzanine" financing offering and term sheet to provide to interested investors. We will need short-term capital to complete the preparations for the offering and feel this is a great opportunity and time to get more involved with us. We have added great partners and projects to our team and have put behind us the situations that inhibited our growth. We welcome you as a member of the company and its exciting future.

As always THANK YOU!

Respectfully and Sincerely,

ROBERT MAERZ
CHAIRMAN & CEO
ASG ENTERTAINMENT
